Tijeras NM 87059

The following products are **approved** by the New Mexico Department of Agriculture for use on NMDA-Certified Organic farms, pursuant to regulations set forth by National Organic Program of the USDA, as implemented by the NMDA

- Premium Compost
- Topsoil Blend
- Custom Potting Mixes*

** potting mixes with ingredients other than Premium Compost, red cinder, sand, pumice, pecan shell hulls and peat should first be approved by this office before use by organic farms.*

This approval remains in effect during the entirety of 2017 provided there is no change in the ingredients and processing methods used to produce said products, as submitted to this office 1/11/17.

Please note that approval of the above products for use does not grant or in any way imply Organic Certification of said products.

NMDA's logo, seal or name may not be used on any packaging or in any promotional material or literature.

This letter, however, may be presented or copied and provided to Soilutions customers upon inquiry.
